Community Work Permit Application Background Information

This Community Work Permit application is a request for individuals or groups to perform community improvement activities into City of Woodbury property. This document is an application and does not constitute a permit. If approved, a separate permit will be issued with this application.

Since almost all property owned by the City of Woodbury was either donated or purchased with City of Woodbury tax dollars for public use, approval or denial of this application will depend on the amount of public benefit associated with the request. Projects that benefit only individuals or small groups will not be approved under the Community Work Permit process. Approval of this application constitutes a legal agreement between the applicant(s) and the City of Woodbury.

Any Community Work Permit granted by the City of Woodbury will become null and void if not exercised within the time period outlined in the permit. A submitted application is a matter of public record. With certain exceptions, any portion of the submitted application material may be reproduced and distributed to City of Woodbury staff, to other discretionary bodies, or to the general public for use in reviewing the request.
