

## 2018 Roadway Rehabilitation Project City Centre Drive Open House

**Thursday, May 3, 2018**

Woodbury City Hall—Ash and Birch Conference Rooms  
2:30-4 p.m.

**The City of Woodbury invites you** to attend an open house to discuss the 2018 Roadway Rehabilitation Project for City Centre Drive on **Thursday, May 3, from 2:30-4 p.m.** Project staff will be available to discuss project stages, estimated schedule, potential access impacts, and communication throughout the project.

City Centre Drive was constructed in 1988 and is currently a 48-foot wide, two-lane undivided commercial roadway with an 8-foot wide asphalt trail along the northeast side. The city is proposing to rehabilitate the roadway as a 42-foot wide, three-lane undivided commercial roadway with a continuous center left turn lane. The roadway will be narrowed six feet on the northwest side to accommodate widening the existing asphalt trail from eight feet to ten feet. Work will also consist of replacing 100 percent of the existing concrete curb and gutter, new commercial concrete driveway entrances (where necessary) and minor utility work. All proposed street and utility work will take place within the existing road right-of-way.

In addition to street work, a new traffic signal will be constructed at the Valley Creek Road/City Centre Drive intersection.

If you are unable to attend, set a meeting at your convenience by emailing [woodbury2018rehab@bolton-menk.com](mailto:woodbury2018rehab@bolton-menk.com) or calling the project hotline.

Look for more project information at the city's website, [woodburymn.gov/roadrehab2018](http://woodburymn.gov/roadrehab2018).
