RE: 2022 Roadway Rehabilitation Project
Project Cancellation

Dear Property Owners:

At the November 10, 2021, City Council Meeting, the Council did not order the 2022 Roadway Rehabilitation project and the project was canceled. Rehabilitation of the Ojibway Park main and north parking lots, water main along Ojibway Drive, and lining of the sanitary sewer are still proposed to be constructed in 2022.

The City Council will have an opportunity to carefully consider and evaluate the existing City policies, the scope of the Royal Oaks Neighborhood Rehabilitation Project, and other priority projects during the annual capital improvement planning process starting in early 2022. Appropriate maintenance activities will continue to be performed on the roadways and utility infrastructure until the project has been reprogrammed.

Please contact me at michael.hejna@woodburymn.gov or (651) 714-3593 with any questions regarding cancellation of the 2022 Roadway Rehabilitation Project.

Sincerely,

Mike Hejna
Engineer I
