

Certification of WaterSense Irrigation Controller

In an effort to reduce water wasted by irrigation systems, the city updated City Code to require all newly installed irrigation controllers be U.S. EPA WaterSense certified (Sec 23-36).

Submit this form and associated documentation to the Building Inspections Department prior to escrow inspection.

Was an irrigation system installed?

Yes

Site Address	_____
Controller installed	_____
Efficiency Components (optional)	_____
Model Number	_____

No

Site Address	_____
--------------	-------

I hereby certify that the information above is correct and accurate.
