

2020 Roadway Rehabilitation Project

August 14, 2020 Update

All schedules are weather permitting.

Phasing map available on following page.

Schedule for Week of August 17 – August 22

Phase 1

- Crews began corrective restoration work this week and will continue to address weeds and areas with poor grass growth.

Phase 2

- Crews began corrective restoration work this week and will continue to address weeds and areas with poor grass growth.

Phase 3

- Continued restoration work is scheduled to take place next week. Restoration areas will be assessed next week for weeding and reseeded.

Phase 4

- Construction of retaining wall is scheduled to begin early in the week.
- Trail work is scheduled to begin mid-week.
- Milling of an inch and a half of pavement is scheduled to begin at the end of the week. No parking is allowed on the streets during milling.

Questions?

Questions can be directed to the project hotline at (612) 430-2805.
